

GREEN SERIES - PREMIUM EFFICIENCY SUPPLY FANS

Green series premium efficiency supply fans are ideal for commercial applications such as kitchens, restaurants, schools, apartments and office buildings. They also provide an economical and practical solution to meet NFPA 96 separation requirements between supply & exhaust air streams in commercial kitchen applications.

FEATURES

- High efficiency direct drive EC motor for energy efficient low maintenance applications.
- Galvanized steel housing.
- Weather proof cabinet designed for outdoor roof mounting.
- Filters designed with large surface area for efficient filtration.
- Washable aluminum mesh filter are located in the intake hood and are accessible through the hood end cap for ease of service.
- All motors are 120/208-240V single phase only.
- Easy on-site addition of customer supplied air supply duct extension between the intake hood and unit provides additional separation where necessary.
- EC Motor offers true variable speed operation and up to 70% energy savings over PSC motors.
